

Out-of-Catchment Applications

The Department is responsible for providing facilities to meet the educational needs of the core curriculum for in-catchment students. The School Enrolment Management Plan (School EMP) procedure assists schools to avoid enrolment spikes from out-of-catchment students, which has historically resulted in the oversupply of infrastructure in some schools and underutilisation in others. The School EMP procedure requires principals at schools with capacity constraints to restrict out-of-catchment students and ensure in-catchment students can enrol at their local state school without requiring additional facilities. Principals must not allow enrolments to exceed the school's Student Enrolment Capacity (SEC), unless enrolment growth is from within the school's catchment area.

The following groups of students will be entitled to enrol, even though they may reside outside the school's catchment area:

- Children and young people who are subject to child protection orders that grant guardianship or custody to the Chief Executive Officer of the Department of Communities, Child Safety and Disability Services
- Siblings of current students
- Students whose parent or legal guardian is employed by the school
- Students who have been excluded from another school, dependent upon the conditions related to the exclusion, subject to agreement of the Regional Director

Please visit the catchment map <https://www.qgso.qld.gov.au/maps/edmap/>

For more information, please contact the school office on 07 5670 7333

Upon completion of this form, please email to admin@yarrabilbass.eq.edu.au. You will be notified of the decision within two weeks of the date on the application.
